

Motion adopted by the EL Executive Board in Rome 18-19 February 2017

Solidarity with Transform Italia

The Party of the European Left expresses its full solidarity to Transform Italy, Forum of Movements for the Public Water, Attac Italy and all other associations affected by the policy of the City of Rome administration which closed the space where they have had their offices for years.

A space that has been open to great experiences of civil participation such as the referendum in defense of public water and the No campaign to reform the Constitution in Italy. We ask the Mayor and the administration to reopen such an important place both for the Italian and European movements.
